

STATE TEAM RANKINGS

Presason: November 24, 2021

Team rankings are based on **predicted performance** at the season-ending State Tournament, as determined by theoretical points earned by individual wrestlers (for example, if a wrestler is ranked #1, 30 points is a fair approximation for a tournament winner; and if a wrestler is ranked #8, he would score a predicted 10 points). So on and so forth. Dual meet results will have no bearing in the team rankings and two wrestlers at minimum must be ranked for a school to make the list.
